The Staff and The Sword Ministry

The Famine Message of 1974

My notes and record surrounding the Famine Message are presented in chronological order. I will always present the Lord's Word in ***BOLD CAPITAL LETTERS*** *to distinguish His Word from my own comments. My notes are recorded exactly as I wrote them.*

My original 1974 explanation and admonition appears as a part of the complete text, but also is important to included here: ***"This is a message from God, Jesus, and the Holy Spirit to America. It was given by the Archangel with this specific wording to a Prophet of God. Those who know and love God will know by His Spirit that this is authentic. The point is that it is from Father God, Jesus Christ, and the Holy Spirit. The messenger is irrelevant. The message is not. It is powerful and to the point. You may pass this on as led to do so. ALL NEED TO READ AND HEED THIS WARNING!"***
